AUTUMN PLANTING NURSERY STOCK

(REMOVAL)

CLEARANCE SALE

BARGAINS

BARGAINS

DON'T MISS THESE VALUES

IT is generally known that we are establishing an extensive new nursery at Woodmont, Conn., at the R. R. Station and will soon move our entire establishment to this new location.

The Nursery stock still remaining at Edgewood, our present office and home nursery grounds, includes a choice lot of **SPLENDID SPECIMEN TREES, EVERGREENS, SHRUBS, BEARING SIZE FRUIT TREES, ETC.** This stock we are now offering at **SPECIAL CLEARANCE PRICES** so as to dispose of it quickly. We have decided that it is better to close out this **STOCK** at **SACRIFICE PRICES** rather than to transplant it to our new Nurseries. Our loss is the purchaser's decided gain. A chance like this may not again occur in a life time. Look over the lists on inside pages and send for quotations on such of the stock as you can probably use and we will promptly quote **VERY SPECIAL BARGAIN PRICES** on such of this list as is not already booked when your definite order is received. Delay on your part may be disappointing to you as the **BARGAIN PRICES** we are making are sure to result in this stock being quickly booked up. We will hold orders subject to convenient shipping dates for either this Spring or, in case of evergreens, for the following August or September planting.

Experienced planters know that Early Autumn planting of Evergreens and other stock that can be taken up with a ball of earth, gives splendid results. Also that practically all other trees, shrubs, etc., if planted in October and November, give better results than when planted in the Spring.

Do not wait until **SPRING**, especially this year. Another Spring may find the labor problem worse than it is this Fall. Don't delay.

Some of the

Clearance Sale

AVENUE, STREET AND HIGHWAY TREES.

Much of New England's beauty is dependent on the fine stately trees along our highways. Thanks to the foresight of our forebears, we are now enjoying this wonderful legacy. Trees, like people, cannot live but for a given time and our present stately trees must some time go. How can we better pay our debt of gratitude for these lovely trees than by planting more for future generations. There is plenty of room almost everywhere for more highway trees. These **SPECIAL CLEARANCE SALE** highway trees are great bargains.

VILLAGE IMPROVEMENT SOCIETIES.

Almost every town now has its village improvement society. These societies' best work is often the encouraging of a more liberal planting of Trees, Evergreens, Shrubs, Vines, Fruit Trees, etc., both along the highways, parkings and about the homes. We can make up a truck or car load of assorted Nursery-stock and quote very **SPECIAL CLEARANCE PRICES**, suitable for general village improvement distribution. Write to us for further details.

CHURCH AND SCHOOL GROUNDS.

Many other countries are ahead of us in the adorning of Church and School grounds. Where should we more naturally look for refinement as expressed in trees and other beautiful growing things, than about the grounds of our Churches and Schools. A more active movement is now rapidly taking shape along this line and these **SPECIAL CLEARANCE SALE OFFERINGS** come in just right for this purpose.

CEMETERIES. Park-like treatment of Cemeteries is now carried to a high degree of beauty in this country. Old cemeteries as well as new ones have continually before them new problems requiring new planting materials. Screening out objectionable boundary lines, avenue plantings and establishing of shrubbery and evergreen groupings, are questions ever before the cemetery management. Much of this **SPECIAL CLEARANCE SALE STOCK** can be used to advantage here.

LOOK OVER THE CLEARANCE SALE STOCK listed on inside page of this sheet. Pick out from it the stock which interests you and send a list to us for special **CLEARANCE PRICES**. We prefer to quote special prices on each separate inquiry, as the sizes, grades, kinds and quantities ordered for a single shipment will necessarily govern the **SPECIAL PRICE** we can quote. Large auto truck or carload lots in a single shipment can be quoted at a lower price than smaller orders. We would suggest neighbors clubbing together in some instances

PLANTING

uses for this

Specimen Stock

CITY AND SUBURBAN HOME GROUNDS. A few carefully selected specimen

Trees, Flowering-shrubs or Evergreens can often be placed about even the restricted city garden and lawn in such a way as to greatly add to its attractiveness as well as providing screens from objectionable views which so often occur. Much of this **SPECIAL CLEARANCE SALE STOCK** is especially valuable for just these purposes.

COUNTRY ESTATES. The practical and aesthetic are happily combined in the development of the many ideal country private estates whose number is so rapidly increasing in this country. Problems of establishing Windbreaks, Woodland border plantings, Groves, Avenues, etc., call for quantities of nursery-stock. This **SPECIAL CLEARANCE SALE STOCK** can be used to great advantage, especially the **LARGER SIZES** to establish quick results. It costs some more to set out these larger sizes but years of waiting can be saved. The extra cost is soon forgotten where the decided saving of time is important.

PUBLIC PARKS. The public very naturally desires to have their Public Parks reach a stage of attractive maturity as rapidly as possible. **LARGE SPECIMEN** Evergreens, Shade and Avenue Trees, with a little extra care in the transplanting, can be made to produce wonderful results right away under the skillful care of the practical park superintendent.

FRUIT GARDENS. The practical and beautiful are hand maidens in the Fruit Garden, whether it be the restricted city garden with its mixture of both Fruits, Vegetables and Flowers, or the more liberal orchards of the country. Do not fail to plant at least a few Fruit-trees and Grape-vines, even if the available space is limited, and where opportunity affords, plant liberally.

This **SPECIAL CLEARANCE SALE** includes some fine **EXTRA LARGE** fruiting sizes of Apples (standards and dwarf), Pears, Plums, Quince and Cherry trees, and bearing size (stake grown) Grape Vines. Inquire for available list.

and profit by this opportunity. Please state in your inquiry if you wish specimen individual trees or stock for general grouping effects. The price of individual specimens is of course much higher than those for general planting. Also state if you wish the stock quoted with the understanding that you will call for it at the nursery, if we are to plan to deliver it with our own trucks or whether it is to be sent by freight. Orders for evergreens may remain at the Nursery until another spring if customer prefers transplanting at that season rather than in the Fall.

Bearing Size Fruit Trees

There is a limited quantity of splendid FRUIT TREES at the Edgewood Avenue Nursery which are now so large that many of them are already of bearing size. These large FRUIT TREES can be transplanted just as safely as smaller ones and will save the purchaser several years of waiting.

Included among these fine FRUIT TREES are some fine Apples, both Standard and Dwarf, Standard Pears, Plums, Cherries and Quince trees.

Strawberry Plants

Send for list.

Bearing Size Grape Vines

We have also to offer at Edgewood a fine lot of bearing size GRAPE VINES. These have been specially grown to stakes and are now from 6 to 8 feet tall. Immediate results can be expected from these vines.

Send for special Check-list of these FRUIT TREES and GRAPE VINES. AT the PRICES we are quoting them our stock will soon be hooked up.

Such an opportunity to obtain Splendid Specimen Trees, Evergreens, Shrubs, Bearing-sized Fruit-trees, etc., seldom occurs and would not in this instance were it not imperative that we clear the land at our Edgewood Nurseries within a short time. Many of these trees have been more than a quarter of a century in reaching their present size and development, having in the meantime been frequently transplanted, as part of the constant watchfulness for their general growth and welfare. As a result they are in perfect condition for again transplanting. There is no greater risk with these fine specimens than with smaller stock. To be able to get these splendid specimens at one-half their actual value will stimulate an active demand for them.

We anticipate a quick clearance. The stock offered in this sale aggregates many thousands, some of the choicest kinds however are in limited supply.

Early inquiries will have the best assortment to select from. All stock will be booked in the rotation orders are placed, subject to the purchaser's instructions as to shipping date.

We have our usual extensive assortment of the REGULAR NURSERY STOCK SIZES as per our General Catalog, a copy of which will be promptly sent on request. Catalogs will be sent out this season only to those who inquire for them.

AUTUMN PLANTING

THE ELM CITY NURSERY COMPANY—WOODMONT NURSERIES, INC.

OFFICE AND SALES NURSERIES EDGEWOOD AVENUE [NEAR NEW YALE BOWL] NEW HAVEN, CONN.

WHY THESE CLEARANCE SALE OFFERS

Our Nurseries at Edgewood have been for many years known as headquarters for high grade **EXTRA LARGE SPECIMEN NURSERY STOCK** for producing immediate Landscape effects. Our own Landscape Department uses quantities of these large specimens annually. The general buying public, now that it is becoming known that these large sizes can be transplanted successfully, is using this class of large nursery stock in increasing quantities, not wishing to wait longer than it is necessary for mature effects with plantings.

Now that Woodmont is soon to be our Nursery headquarters, we have decided it is better for us to dispose of these **SPLENDID SPECIMEN TREES, EVERGREENS and SHRUBS** direct to the buyer from our Edgewood Nurseries rather than move them to Woodmont. This special **CLEARANCE SALE** at about one-half real values will make quick disposal of this fine stock. Look over the list on inside page, check off such stock as you can probably use and send this list to us at your earliest convenience. We will quote astonishingly low prices. Prices which you cannot afford to overlook. As the number of many of the quoted items is limited, it is well to state a second choice. Undoubtedly this stock will all be quickly booked up. It is dangerous to delay making early inquiry for whatever you may wish and have the order definitely booked.

NO CATALOG WILL BE SENT OUT THIS AUTUMN, except on request. If you desire a copy of our Latest General-Wholesale-Catalog, please instruct us to send you one and it will be mailed promptly. Our extensive stock of the usual planting sizes is listed with prices, in this catalog as usual.
